

**Various Unit Conversion**

**DPA series - Compact miniature pressure/vacuum sensors**

Delta's new-generation and slim pressure sensor is small in size and light, supporting many installation methods. DPA features high measurement accuracy, excellent stability, high shock and vibration resistance, good over-load capacity, anti-corrosion and heat resistance, and can work with all Delta's industrial automation products in hi-tech electronics industry, general processing industry, food packaging industry and automatic assembly industry.

**Various unit conversion**

The DPA series offers 6 kinds of globally adopted pressure units for measurement and display.

**3-colour LCD display (green, red, orange)**

The large LCD with a green, red and orange 3-colour LCD display allows users to set the display colour according to the ambient environment, such as when the pressure is within normal range or exceeds the allowed range. The display's colour is orange when in parameter setup mode. This makes it easy for reading and reduces operation errors.

**Safety control mode**

The safety control mode prevents operators from carelessly touching relevant parameters and affecting the operation and production of the equipment.

**Functions:**

- 2 x digital outputs (NPN or PNP) and 1 x analog output (1 - 5V or 4 - 20mA)
- Various unit conversion functions (kPa, kg/cm<sup>2</sup>, bar, mmHg, psi, inchHg)
- Selectable LED (3 colours) set different colours for different parameters
- 10 sets of output response times available (2ms - 5.000ms)
- Connection: 1/8 PT, inner pore M5
- Safety control function (to prevent unwanted parameter changes)

**Accessories for pressure sensors**

<b>DPA-PFKIT</b>	panel mount accessory	(31 x 31 mm cut-out)
<b>DPA-FMKIT</b>	surface mount support bracket	(all sides mounting)

- Panel: Use optional accessory DPA-PFKit.

- To install fixing frame, purchase the optional OPA - FMKit accessory.
