

1st April 2010

**Dear Customer**

**2010 catalogue and price change**

Our new 2010 catalogue features many new complementary products including, but not limited to, the Hager moulded case circuit breakers (MCBs) and air circuit breakers (ACBs) to complete the range of protection devices.

The GREEN cover is indicative of the new direction in energy management and control, with products focused on energy and its management in all networks.

Price adjustments have varied in line with the latest exchange rates and supplier price increases, and in some cases have even been reduced.

As usual, Electrahertz strives to offer quality products at competitive prices.

New prices come into effect as from the 12<sup>th</sup> of April 2010.

We trust you will enjoy our new catalogue and the extended range of quality products on offer. We take this opportunity to thank you for your past support and look forward to being of service to you, well into the future.

Yours sincerely,

Ian C Greyling  
Managing Director
