MLINE is a unique flexible, modular concept permitting different audio and signalling devices to be combined with facilities to mount them in the most practical way. Different **domes** (*audio, visual or both*) can be mounted on any of five different bases which determine the supply voltage of the unit - **12 - 24 VAC/DC or 90 - 240 VAC**

- LED technology - zero maintenance built-in LED guaranteeing up to 100.000 hours of productive life

type	lens colour	dB @ 1 m max	description	dimensions	
				Ø	H

DOMES - beacons or sounders or combinations of both require a base to complete a device

XLF S - low profile, high optical performance LED signalling (IP66)

- Three different lighting effects: steady - flashing - strobe (*5x flash*)

90821	blue	-	multifunctional LED beacon	92	43
90822	amber	-	multifunctional LED beacon	92	43
90823	red	-	multifunctional LED beacon	92	43
90824	green	-	multifunctional LED beacon	92	43

XLF RGA - low profile multicoloured LED signalling device (IP66)

- Three alarm colours red - amber - green (*selectable via independent electric contacts*)
- 2 separate functions: steady - flashing (*selectable via internal DIP switches*)

90847	white		multicoloured red/green/amber LED beacon	92	43
-------	-------	--	------------------------------------------	----	----

FLR S tall, high optical performance multi-functional LED beacon (IP66)

- Three different lighting effects: steady - flashing - rotating (*simulates rotating beacon*)

90351	blue	-	multifunctional LED beacon	92	108
90352	amber	-	multifunctional LED beacon	92	108
90353	red	-	multifunctional LED beacon	92	108
90354	green	-	multifunctional LED beacon	92	108

SLR-S - tall multi-functional "SUPERBRIGHT" LED beacon (IP66)

- Compares to traditional 6 Joule Xenon discharge flashing beacon
- 3 different lighting effects: flashing - strobe - random (*uneven flashing pattern*)

90851	blue		superbright multifunctional LED beacon	92	108
90852	amber		superbright multifunctional LED beacon	92	108
90853	red		superbright multifunctional LED beacon	92	108
90854	green		superbright multifunctional LED beacon	92	108

SIR-E - multi-functional electronic sounder (IP65)

- High acoustic performance - adjustable volume 65 - 105 dB
- Multi-tone 64 different sounds available (*selectable via internal dip switches*)
- Two separate functions: pre-alarm - alarm

90360	grey	105 dB	multifunction sounder	92	62
90358	red	105 dB	multifunction sounder (<i>64 sounds</i>)	92	62

SIR-E JUNIOR - economical multi-function sounder (IP65)

90417	grey	100 dB	multifunction sounder (<i>16 sounds</i>)	92	62
90420S	red	100 dB	multifunction sounder (<i>16 sounds</i>)	92	62

SIR-E LED S - combination beacon and sounder (IP65)

- 3 separate functions: alert - pre-alarm - alarm

90362	amber	105 dB	beacon and sounder (<i>64 sounds</i>)	92	62
90363	red	105 dB	beacon and sounder (<i>64 sounds</i>)	92	62
90364	green	105 dB	beacon and sounder (<i>64 sounds</i>)	92	62

SIR-E LED - JUNIOR - econo combination beacon/sounder (IP65)

- Two lighting effects: steady - flashing

90402	amber	100 dB	beacon and sounder (<i>16 sounds</i>)	92	62
90403	red	100 dB	beacon and sounder (<i>16 sounds</i>)	92	62
90404	green	100 dB	beacon and sounder (<i>16 sounds</i>)	92	62
