

- 2 x digital outputs (NPN or PNP) and 1 x analog output (1-5V or 4-20mA)
- Various unit conversion functions (*kPa, kg/cm<sup>2</sup>, bar, mmHg, psi, inchHg*)
- Selectable LED (*3 colours*) set different colour for different parameter
- 10 sets of output response times available (2ms- 5.000ms)
- Connection: 1/8 PT, inner pore M5
- Safety control function (*to prevent unwanted parameter changes*)
