2-LOCK cable ties (double tooth perfect grip)

2-LOCK™ cable ties with innovative (*patented*) locking system based on an over-moulded double tooth stainless steel cage ensuring mechanical performance superior to any other cable tie on the market.

The perfectly smooth (*from both sides*) body of **2-LOCK™** cable tie reduces the required insertion force. The absence of teeth on the body permit "continuous closing adjustment" ensuring correct tensioning for each possible clamping diameter.

Black cable ties with additional carbon black providing UV resistance for outdoor applications.

Adhesive tie mounts (*self adhesive backing*)

- Fixing with screw or adhesive, for cable ties up to 3.6 or 4.8 mm width

Raw material: Polyamide 6.6
 Working temperature: -10° - +60°C
 Flammability rating: UL 94 class HB
