

**DIN mounting rail**

Passivation process for Electro DIN rail does not contain hazardous substances and complies fully with RoHS directives 2002/95/EC. New electrolytic zinc-plating treatment is far superior and fully replaces previous Hexavalent Chrome treatment (*usually a "yellowish" finish*) now banned in most countries.

**DIN rail cutter (for steel mounting rail only)**

The Atmco LB-100 is a high quality, professional DIN rail cutter designed for high output, offering "burr-free" precision cut and trim of standard DIN rail (*made in USA*)

- Hardened ground die set (*replaceable*)
- Detachable handle and grip assembly (*550 mm*)
- Stop length indicator and finger guard
- **Safe - Simple - easy to use**
