Re: Price Increase 1st July 2013

Dear valued Customers,

We thank you, our valued customer for the continued support shown during these trying times.

It is with unpleasant news that, due to the weakening of the South African Rand in recent months, we are forced to increase our prices, since devaluating by 35% against the Euro over the last year.

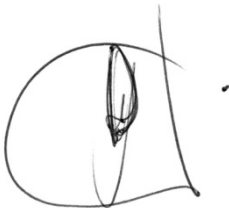

As from 1st July 2013, all product prices within our 2012/2013 catalogue, notwithstanding any other products which we stock or sell, will increase by an additional 6.5% on the original previous 8%.

This will bring our increase to a total of 15% in our 2012/2013 catalogue.

The products not in our catalogue, may or may not be affected by similar margins, and we will endeavour to keep any increases as low as possible.

Thank you for your understanding.

Yours faithfully,

Ian Greyling
