

Portable network analyser

new

CP - FLEX

CIR-e3

CP-5

type	description		price	
Ar5 portable network analyser				
	<ul style="list-style-type: none"> • measurement and display of all energy parameters (V / A / kVAR / kVA / kWh / PF) • internal memory to store different measurements (independent files for each measurement) • includes powerful analysis software powervision • downloads files to PC • large LCD display – displays up to 30 electrical parameters • battery backup (8 hrs) • EN 60664, EN 61010, EN61036, VDE 110, UL 94 			
AR5 KIT4	portable electrical network analyser complete with: <ul style="list-style-type: none"> - robust carry case - 3 x 2000/200 Amp current clamps - voltage leads - harmonic software and powervision software 			
Ar5 software accessories				
Quality of supply	monitors interruptions, dips, surges, spikes, programmable sensitivity, trigger and parameters display of VII, Hz disturbances			
Flicker	monitors and displays flicker on screen - PC instant, Pst and Plt format			
Fast check	monitors and displays motor start-up and energy parameters analyser curves for motors starting and common transient events			
Check meter	supplied with optical lens for connection to active/reactive energy meters (1% accuracy) detects possible fraud, field variation of energy meters			
Ar5 current clamps				
type	current range	internal diameter	description	price
CP-5	0.05 5 Amp	25 x 5mm	current clamp for above	
CP-100	1 100 Amp	25 x 5mm	current clamp for above	
CP-FLEX80	5 Amp 2 kAmp	80cm	current clamp for above	
CP-FLEX120	5 Amp 2 kAmp	120cm	current clamp for above	
CIR-e3 3-phase economy portable network analyser				
A portable high performance recorder designed for energy audits. The compact design and ease of operation are ideal for performing energy studies.				
	<ul style="list-style-type: none"> • measurement of all electrical parameters • auxiliary supply voltage 100...400 VAC • magnetic backing for easy attachment to panel doors • 4 quadrant metering • LED indication of faulty installation 			
CIR-e3	analyser supplied complete with <ul style="list-style-type: none"> - CP flex 40cm current transformers 200/2000/20000 Amp - voltage leads - SD memory card and USB/SD card reader - PC software 			
Accessories				
CP-5 CIR-e3	5A clamps	(set of three)		
CP-100 CIR-e3	100A clamps	(set of three)
