

All our Valued Customers

17th June 2026

Re: Price increase – Effective 13th July 2026 of our 2025/2026 Catalogue

Dear Valued Customers,

We, at Electrahertz (Pty) Limited are committed to serving the needs of our customers and reluctantly advise, that due to high supply chain costs and raw material prices, we have no alternative but to increase the prices.

We don't take the decision to adjust our prices lightly. Our pricing has remained unchanged since the publication of our 2025/2026 catalogue in October 2024.

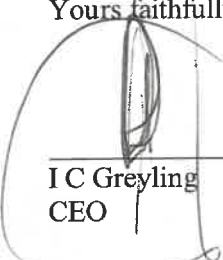

We are writing to formally advise you that effective **13th July 2026**, we will be implementing a **5% price increase** to our list prices.

Please ensure that all relevant personnel in your company are informed of this price increase and do not hesitate to contact our sales department for any further information.

Furthermore, please advise all relevant personnel that general **VALIDITY PERIODS** and **QUOTATIONS** may vary from product to product.

We thank you for your continued support during these trying times.

Yours faithfully

I C Greyling
CEO
